

Shed in Sell to Trofarello

1.970 sm

VISIBILITY - On Via Torino, close to important industrial and commercial realities, the Capannonne is in an excellent state of maintenance, with new driveway doors and a large and comfortable square.

Arranged on two spans for approximately 1,240 m2 with overhead crane, height under beam mt. 6, also includes 400 m2 of offices (on 2 floors) and 85 m2 of renovated changing room/canteen rooms.

The aforementioned square on the Turin-Genoa state road has a surface area of 1,400 m2, of regular shape with a shed for washing vehicles.

A truly interesting proposal in an area with easy road traffic, a stone's throw from the center of Trofarello, easily reachable from the ring road, and very visible to the public.

Cadastral Cat. D/8.
